

Resource Pack

Introduction

This resource pack has been designed and compiled to help enhance and support your little one's learning objectives during this unprecedented time. It brings together 9 different activities that aim to help engage your little one in learning all whilst having fun!

The activities vary and have been designed to engage Early Years Children and those who, under normal circumstances, would be attending Reception or Year 1 classes.

During this time, we understand how important it is to engage your child in learning and we know that the best way to do this is through having fun and play! Studies have in fact shown that when play is incorporated into a learning environment, children respond better to the learning objectives and outcomes.

This pack also helps to contribute towards the seven areas of learning and development that are laid out in the Early Years Foundation Stage Framework.

- Communication & Language
- Physical Development
- Personal, Social and Emotional Development
- Literacy
- Mathematics
- Understanding the World
- Expressive Arts & Design

We hope you and your little one find our Resource Pack useful, engaging and most importantly FUN!!

Tumble Tots (UK) Ltd. is not a registered educational provider and, as such, this pack is only to assist with additional help and support with a child's learning outcomes.

Physical Play

Warm Up

Stream **Wiggly Woo** from your usual streaming service, play the song twice following the actions as you go!

Activity 1 – Star Jumps

Activity 2 – Leg Raises

Activity 3 – Crawling

In an open area, either indoors or in your garden, crawl along the floor like your favourite animal, can you make the noise of your favourite animal?

Create an opening between your legs and ask your little one to crawl through the space (this will help aid their spatial awareness skills).

Give your little one something to balance on their backs as they crawl around an open area in different directions and speeds.

Activity 4 – Shape Work

Using some cardboard/paper-based recycling items, draw around some household shapes and, assist your little one to cut them out.

Then, mix all of the shapes up, ask your little one to retrieve a certain shape and put it on a designated target point.

Cool Down

Stream **Little Rabbit** from your usual streaming service, play the song twice following the actions as you go!
